DETAILED ACTION

1. In view of the appeal brief filed on 6/9/2004, PROSECUTION IS HEREBY REOPENED. A new ground of rejection set forth below.

To avoid abandonment of the application, appellant must exercise one of the following two options:

- (1) file a reply under 37 CFR 1.111 (if this Office action is non-final) or a reply under 37 CFR 1.113 (if this Office action is final); or,
- (2) request reinstatement of the appeal.

If reinstatement of the appeal is requested, such request must be accompanied by a supplemental appeal brief, but no new amendments, affidavits (37 CFR 1.130, 1.131 or 1.132) or other evidence are permitted. See 37 CFR 1.193(b)(2).

Power of Attorney

2. The power of attorney filed on 8/27/2003 is defective due to missing signature of all the applicants or owners of the application, unless such power of attorney is accompanied by a petition and fee under 37 CFR 1.182 giving good and sufficient reasons as to why such papers should be accepted. As per MPEP 402.10.

3. Applicant has appointed an attorney or agent to conduct all business before the Patent and Trademark Office. Double correspondence with an applicant and applicant's attorney or agent will not be undertaken. Accordingly, applicant is required to conduct all future correspondence with this Office through the attorney or agent of record. See 37 CFR 1.33.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

5. Claims 1-2,5-7,10-11 are rejected under 35 U.S.C. 102(b) as being anticipated by WARCRAFT II (Blizzard Entertainment).

In Warcraft II discloses a method of playing a game (see Figure 1 on page 7), which comprises the steps of generating, in direct response to an action of a player playing a game, a first area (oil platform and see Figure 8 on page 16 for the location of the first area), the first area overlapping only a portion of a resource area (see page 16, lines 25-32 and as seen in Figure 9), the overlapping portion defining a resource collection area (oil) and see page 16, lines 25-36), and enabling an acquisition of resources from the resource collection area (see page 17, lines 1-10 and as seen in Figure 9), the first area covers at least a portion of one of a plurality of resource areas having different densities of resources, the first area covers at least a portion of one of a plurality of resource areas having qualitatively different resources (see page 16, lines 33-36).

Allowable Subject Matter

6. Claims 12-20 are allowed

7. Claims 3-4,8-9 objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments filed 6/9/2004 have been fully considered but are moot in view of the new ground of rejection. Any remaining arguments have been fully addressed in the above rejection.
